Magic at Home!

Muffin Tin Printmaking

Materials Required:

- Muffin tin
- 3 colors of your choice of tempera paint
- Toothpick and/or q-tips
- A sheet of paper (printer paper works well).

Instructions:

1. Flip the muffin tin upside down and begin painting the three colors on each circle.
2. With a toothpick or any object that has a fine tip, mix, swirl, and/or create shapes and patterns on the painted circles.
3. Cover the upside down muffin tin circles with the piece of paper and gently press.
4. Remove the paper by carefully peeling it off the muffin tin. You may repeat step 3 as many times as you want to make extra editions of your printed muffin tin printmake!
