

The Magic House Proudly Presents

Magic at Home!

Make-Your-Own Flowers

Materials Required:

- Paper towel or toilet paper roll
- Glue
- Scissors
- Markers

Instructions:

1. Cut the roll into equal sections widthwise. You can make these as narrow or as wide as you want, but they should all be the same size.
2. Crease the cut sections of the roll to become petals of a flower.
3. Use glue or tape to attach the petals together.
4. Next, decorate the petals using crayons, markers, yarn or magazine scraps.
5. Add the stem! You can use craft sticks, a few straws bundled together or pipe cleaners.
6. What are the other parts of a plant you could add? Hint: they rhyme with sleeves.
