Oobleck

Materials Required:

- 2 cups cornstarch
- 1 cup water

Instructions:

1. Mix 2 cups of cornstarch to 1 cup of water into a bowl. Mix the cornstarch and water until your oobleck is formed.

Tip: If you would like to color your oobleck, add your food coloring to your water and then mix with the cornstarch.

2. Add water or cornstarch as needed until you get the consistency of oobleck.

3. Have some fun with your oobleck! Try forming it into a ball, then watch it melt into your hands like magic! Use a spoon and hit the top of the oobleck quickly, you will notice the spoon will bounce off! Then try to slowly move the spoon into the oobleck, what happens this time?
