

# The Magic House Proudly Presents

# ***Magic at Home!***

## Baking Soda Painting

### **Materials Required:**

- ¼ cup baking soda
- ¼ cup water
- Vinegar
- Food coloring
- Whisk or fork to mix
- Small bowls
- Heavy paper
- Paint brush
- Spray bottle/ pipette or squeeze bottle

### **Instructions:**

1. Mix together baking soda and water and a few drops of food coloring into a small bowl to make your paint. Repeat for as many different colors as you like.

Tip: If you mix up the primary colors: Red, Blue, and Yellow, these colors will help you to create the secondary colors: Green, Orange, and Purple.

2. Paint your paper! Be sure to use lots of paint to guarantee a fizzy reaction. Keep in mind, your baking soda will tend to settle at the bottom of your bowl. Use your paint brush to mix the paints while you work.

3. Using either a pipette and a dish of vinegar or a spray bottle filled with vinegar, add vinegar to the top of your painting and see what happens!
