

The Magic House Proudly Presents ***Magic at Home!***

Melt it, Mix it

Materials Required:

- Ice cube trays or small plastic containers
- Water
- Food coloring
- Large bowl

Instructions:

1. Fill ice trays or small containers with water. Add food coloring – blue, red, yellow.
2. Place containers in freezer.
3. Place small amount of water in large bowl and add two different primary colored cubes

As you observe the colors mix, what secondary color do you discover?
