## Mother's Day Paper Beads Jewelry

### **Materials Required:**

- Scrap paper (could be old paintings, artwork or even magazines)
- Pencil
- Ruler
- Scissors
- Glue stick
- Yarn or string

### **Instructions:**

1. Using the ruler, measure out your scrap paper and divide into very long narrow triangles. 2"x 7" strips divided into two triangles works well.
2. Wrap the 2" side of your triangle around the pencil one time.
3. Then using the glue stick, coat the entire length of the paper with glue.
4. Rolling the pencil forward, you will glue the entire triangle into a paper bead. Add another dab of glue at the end to secure.
5. When you've completed your bead rolling, string them onto your yarn or string to make a necklace or bracelet.
