

# The Magic House Proudly Presents *Magic at Home!*

## Mother's Day Pop-Up Card

### **Materials Required:**

- Paper
- Scissors
- Markers or crayons

### **Instructions:**

1. Fold two pieces of paper in half. One piece will end up being the inside and one will be the outside of the card!
2. Take one paper, while folded in half, make 2 parallel cuts on the folded edge. The cuts should be in the center of the card so the pop-up image is centered.
3. Open the paper, so you can see the slits. Use your fingers to gently pull the tab section up. Run your fingers along the fold so that it's firmly creased. Crease the tab section in the opposite direction so it pops out and away from the card.
4. Glue the paper with the pop-up inside the other piece of paper.
5. Cut out a pop-up image into any shape you like and glue your image to the pop-up tab.
