Game Design

Designers

Create your own character to be a hero in a video game!

- To clear the board, lift the handle and dump the colored blocks into the middle tray.
- Now place the small, colorful blocks into the black grid to create your own game character. Does it look like you?
- Slide the black grid over to the camera station. Press the "Capture Hero" button in the top right corner of the screen.
- A green box will appear around the black hero template on the screen. Once your image has been captured, you will see what your hero looks like in digital form. If you like it, press "Take" and you are ready to play.

Add-on Custom Experiences:
